

To whom it may concern:

I am an XM satellite Radio subscriber. I am asking for you to reject the NAB's petition 04-160. I used both the radio and XM. As a paying subscriber I do not feel that the FCC should allow the National Association of Broadcasters to dictate what I hear. Instead you should allow me to dictate what I listen to. I do not see XM as a threat to NAB. XM can be listened to in areas where I can not get good radio transmissions. I see no reason for the FCC to limit XM's ability to transmit traffic and weather reports. You would be doing the nation a dis-service by stopping competition. Thank you for your time.
